

Fort Hood

BRAC 2005 Recommendation:

BRAC 05 recommendations validate that Fort Hood remains one of the Army's premier heavy maneuver installations with one of the largest concentrations of Operational Army units. The Army intends to relocate elements of a Heavy BCT and aviation units from Fort Hood to Fort Bliss beginning in FY 06, to balance the Operational Army units across its major installations in order to enhance readiness, deployment and training. The Army intends to relocate a BCT and Unit of Employment (UEX) Headquarters from Fort Hood to Fort Carson. These recommendations accommodate the return of forces from overseas and the Army's Modular Force Transformation. The net change in the Soldier population at Fort Hood from 2003 when Modular Force Transformation began and at endstate in 2011 is minimal.

Gains:

- There are no incoming activities at Ft Hood directly related to BRAC 2005. However, between 2003 and 2009, Ft Hood will experience a temporary growth of approximately 9,000 soldiers. From FY03-11 there will be an overall reduction of 26 soldiers at Ft Hood.

Losses:

- Heavy BCT (-) and aviation units to Ft Bliss
- Heavy BCT and UEX Headquarters to Ft Carson
- Inactive various engineer, air defense artillery and support units
